Objective: To gain experience and knowledge in various aspects of computing and technology.

Education

California State University, Monterey Bay

Expected Graduation Spring 2014

Bachelor of Science in Computer Science and Information Technology

Concentration in Networks and Security

Skills

- Ability to learn quickly and adapt to new situations and challenges.
- Work ethic: highly motivated and dedicated to success in projects and problem-solving.
- Effective communication: ability to convey information to technically educated peers as well as the general population.

Projects

- CSUMB Capstone project: extensive research and development of Software-Defined Networking training lab for employees at Ericsson, Inc.
- Ongoing research in system and network penetration testing tools and capabilities.

Internship Experience

Cisco Systems - San Jose, CA

May 2013 to August 2013

QA Engineering Intern

- Learned about and completed project on Cisco Smart Care software regression testing.
- Discovered and reported numerous bugs encountered during testing.

Work Experience

Santa Barbara City College - Santa Barbara, CA

August 2010 to August 2011

Lab Monitor

- Assisted in management of over 100 workstations in five classrooms and labs.
- Software troubleshooting including system wipes and reimaging. Hardware diagnostics on components, peripherals, and network hardware.
- Completed internship involving extensive software and hardware testing in preparation for operating system upgrade on lab and classroom workstations.
